

DIARY NOTES - 16 June

STATINTL [REDACTED] H

2. I reported that we had received a copy of Mr. Cannon's letter to Mr. Stans approving the amount of money we requested for Fiscal Year 1959 but denying our request for "no year" funds.

3. I also reported to the Director that I had been appointed without my knowledge or consent to the Advisory Council of the Economic and Industrial Development Committee of Fairfax County and explained the restricted role I would have to play in order to avoid conflict of interest charges. The Director thought that I should by all means serve on this committee and asked me to consult with Larry Houston in drafting the appropriate reply. This, I have done. H

5. The Director said that he had met with [REDACTED] earlier this morning on the reciprocity legislation. [REDACTED] had consulted with the leaders of Congress and it seems certain that the legislation could not be put through quietly. While Jerry Morgan of the White House Legal Staff will study the legislation to see if there is any way to soften the language it appears probable that no further action will be taken on this matter until Congress reconvenes next January. A side issue is the fact that the [REDACTED] operating from Washington. If we should close [REDACTED] which would damage us one thousand times more than we could damage them. H

6. Bob Amory spoke to me about the mockup for modular furniture in the Riverside Stadium. I told him that inasmuch as this was going to cost \$50,000 I thought I would have to speak to the Director about it before we went ahead. It was Bob's ~~strong~~ ^{firm} impression that this was not necessary. However, after checking with Gates and [REDACTED] as to what the Director ~~would~~ did approve I am convinced that I must take it up again before we move forward.
